SECTION 4: First aid measures

In all cases, provide the affected person with physical and mental peace and prevent colds. Never give anything by mouth to an unconscious person. Pay attention to personal safety during rescue work. If in doubt or if symptoms persist, seek medical attention.

4.1 Description of first aid measures

Inhalation

Stop exposure immediately. Transport the victim to fresh air (beware of contaminated clothing) and keep him in a position that facilitates breathing. Keep the victim warm. Seek medical attention if symptoms appear or persist.

Skin contact

Remove contaminated clothing and shoes immediately. Remove rings, watches, bracelets, etc., before or during washing, if they are in the skin contact area and if it is easy to do so. Wash the affected area for at least 15 minutes with plenty of clean running water, preferably lukewarm. Do not use solvents or thinners. Never neutralize. If symptoms persist, seek medical attention.

Eye contact

Protect unaffected eye. Immediately flush eyes with a moderate stream of clean running water, preferably lukewarm. Open the eyelids (even by force). Remove contact lenses, if present, and continue rinsing for at least 15 minutes from the inner corner of the eye to the outer one. Never neutralize. If symptoms persist, seek medical attention.

Ingestion

Do not induce vomiting. Rinse mouth only with water. Administer about 10-20 crushed activated charcoal tablets with drinking water, preferably lukewarm. Sparkling or mineral waters are not suitable for rinsing or drinking. Never administer alcoholic beverages. If the victim vomits spontaneously, keep his head low to ensure he cannot inhale vomitus or stain other parts of his body or the body of the rescuer. If the problem persists, seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

If product is swallowed may cause: nausea, vomiting, diarrhea and malaise.

Inhalation high concentration of vapors may cause: drowsiness, dizziness, headaches, nausea and respiratory system irritation.

Symptomatic treatment.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media

CO₂, dry extinguishing agent, water spray, foam.

Extinguishing media which shall not be used for safety reasons

Solid water streams may be ineffective. The fire may spread.

5.2 Special hazards arising from the substance or mixture

In the event of a fire, prevent the leakage of extinguishing water and product residues into sewers and environmental components, especially into water sources. Collect them separately and dispose safely in accordance with applicable legislation and local regulations

In case of fire, hazardous combustion gases may be formed: carbon oxides and products of incomplete combustion.

5.3 Advice for firefighters

Do not intervene without suitable protective equipment. Wear suitable self-contained breathing apparatus and fire-fighting/chemical suit.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Avoid inhalation, contact with skin and eyes, wear suitable protective equipment and clothing, see section 8 of the SDS. Ensure adequate ventilation of the premises and avoid the accumulation of vapours or aerosols. Additional protective measures - see section 7 of the SDS.

6.2 Environmental precautions

Avoid further leakage of the product into sewers and environmental compartments, especially water sources. If this cannot be prevented, inform the relevant authorities (police and fire brigade) immediately.

6.3 Methods and material for containment and cleaning up

Depending on the amount of product spilled, for large spills, first dam the product and then pump it out, or for small spills, wipe or absorb with a suitable inert absorbent material (e.g., nonwoven fabric, vermiculite, dry sand), collect in labeled, sealable containers, and dispose of according to Section 13. Flush residues with water, collect for disposal as waste. Minimise the formation of vapours and aerosols during disposal, e.g. by a suitable ventilation system. Ventilate the affected area.

In case of damaged container, transfer the content into new undamaged container and correctly re-label.

6.4 Reference to other sections

Observe also the provisions of section 7, 8 and 13 of this safety data sheet.

Avoid inhalation, contact with skin and eyes, wear suitable protective equipment and clothing, see section 8 of the SDS. Ensure adequate ventilation and avoid accumulation of vapours and aerosols. If vapours and aerosols are still formed, their deposits must be removed regularly.

Observe the safety regulations for handling chemicals. Smoking, eating and drinking should be prohibited at the point of use. Always wash your hands after handling the product. Remove contaminated protective equipment before entering rest or eating area. After work, wash thoroughly with warm water and soap, take a shower. Change your contaminated clothing immediately with clean one.

7.2 Conditions for safe storage, including any incompatibilities

Store in original, tightly closed containers in a dry and well-ventilated place. Protect from frost, direct sunlight and high temperatures. At temperatures above 100 °C it causes the evaporation of the liquid component of the product. Do not store with incompatible materials: acids, alkalis, oxidizing and reducing agents.

8.2.2 Individual protection measures, such as personal protective equipment

Respiratory protection

Not necessary in case of compliance with limits established and if vapours or aerosols are not formed. If exposure limits are exceeded or if vapours and aerosols are generated, use a respirator, half mask or full face mask, in case of intensive or prolonged exposure, accident or fire, use self-contained breathing apparatus.

Hand protection

Wear protective gloves in case of prolonged or repeated skin contact.

Eye/face protection

Wear well-sealed goggles if eye contact is possible.

Skin protection

Body protection must be selected according to the activity and possible exposure, e. g. protective work clothes and shoes, apron,
